PROFESSIONAL SUMMARY

Innovative Senior Full Stack Developer with 7 years of professional experience architecting and delivering enterprise-grade applications for multinational corporations. Proven track record of designing highly scalable APIs that manage extensive datasets and serve millions of users globally across the travel, financial, energy, and pharmacy sectors. A forward-thinking, AI-augmented developer proficient in leveraging advanced agentic tools to accelerate development lifecycles, optimize cloud infrastructure, and maintain uncompromising code quality.

CORE COMPETENCIES & SKILLS

Backend Development:	.NET Core (up to .NET 10), C#, Web APIs, Microservices Architecture
Frontend Development:	TypeScript, React, Angular
Database & Messaging:	SQL Server, PostgreSQL, Cosmos DB, Redis, Kafka, RabbitMQ
Cloud & DevOps:	Microsoft Azure, Git, CI/CD, Server Health & Cost Monitoring
Testing & Quality:	XUnit, NUnit, Integration Testing
AI & Agentic Workflows:	Kiro, Windsurf, Claude, Cursor, AI-assisted prompt engineering and spec-driven development

PROFESSIONAL EXPERIENCE

Technical Consultant / <i>Ahead</i>	Gurugram, India 05/2025 – Present
- Spearhead full-stack development for enterprise-grade projects, driving the successful delivery of the Rx Vector platform for the US pharmacy domain Navitus and the Intermex platform for the financial checks domain. - Accelerate development lifecycles and enhance code robustness by integrating agentic coding tools (Windsurf, Claude, Cursor) into daily workflows. - Ensured project alignment and maintained team velocity by leading stand-ups, effectively delegating tasks, and streamlining client communications.	
Senior Software Engineer - Associate Staff Engineer / <i>Nagarro</i>	Gurugram, India 01/2022 – 05/2025
- Optimized core business logic interacting with Cosmos DB, successfully reducing cloud infrastructure costs by 90% while maintaining high availability for extensive data operations. - Engineered a generic, highly scalable solution to facilitate the seamless transformation of legacy SOAP APIs into modern REST APIs, significantly improving system interoperability. - Developed, enhanced, and maintained a suite of robust microservices for a major client in the non-profit sector, adhering strictly to Agile development methodologies. - Conducted end-to-end integration and unit testing, managed system documentation, and actively monitored server health, tracked failures, and optimized cloud resource consumption.	
Senior Software Engineer / <i>Accolite Digital</i>	Gurugram, India 11/2020 – 01/2022
- Architected and developed an innovative middleware solution for the energy sector from inception, focusing on the reliable management of remote prepaid meters. - Designed an efficient and secure system for generating Common Data Formats (CDFs) to process data from remote IoT meter infrastructures.	

- Served in a leadership capacity, mentoring junior teammates, delegating work assignments, and providing critical technical guidance to elevate overall team performance.
- Ensured comprehensive code coverage and strict adherence to quality standards by writing robust unit test cases utilizing XUnit.

Software Engineer / *Fareportal India Pvt Ltd*

Gurugram, India | 01/2019 – 11/2020

- Collaborated within a rapid-paced Agile team to engineer user profile and loyalty reward Web APIs for industry-leading OTAs (CheapOair and OneTravel), directly impacting and serving millions of active users.
- Authored highly efficient SQL stored procedures and Web APIs capable of reliably handling millions of concurrent hits across massive enterprise datasets.
- Executed the seamless migration of legacy enterprise Web APIs from .NET Framework to .NET Core, drastically improving system performance and long-term maintainability.
- Maintained exceptional code quality and security standards through comprehensive NUnit testing and continuous SonarQube integration.

KEY PROJECTS

- **Rx Vector Platform (Navitus):** Spearheaded full-stack development for the US pharmacy domain, ensuring the successful delivery of enterprise-grade platform features. (05/2025 – Present)
- **Intermex Platform:** Drove full-stack development efforts for the financial checks domain, contributing to a highly reliable enterprise system. (05/2025 – Present)
- **Configuration & Translation Services (Blackbaud SKY API):** Maintained and scaled critical CRM microservices for the non-profit sector. (06/2022 – Present)
- **Non-Profit CRM:** Developed core functionalities for a specialized Customer Relationship Management system handling large-scale donor datasets. (01/2022 – 12/2022)
- **Remote Meter MiddleWare:** Engineered an energy sector solution facilitating the secure generation and transmission of CDFs for remote smart meters. (11/2020 – 12/2021)
- **GDPR Compliance Engine:** Developed and deployed automated end-of-service compliance features for enterprise platforms to ensure strict data privacy adherence. (08/2020 – 11/2020)
- **User Profiles & Loyalty Rewards (CheapOair):** Built high-traffic profile management APIs capable of handling millions of concurrent user requests. (01/2019 – 11/2020)

EDUCATION

Master of Computer Applications (MCA)

2016 – 2019

C-DAC, Noida (GGSIPU)

Bachelor of Computer Applications (BCA)

2013 – 2016

Maharaja Surajmal Institute, Janakpuri (GGSIPU)

CERTIFICATIONS

- **Microsoft Certified:** Azure AI Fundamentals (AI-900) | 07/2023 – Present
- **Microsoft Certified:** Azure Fundamentals (AZ-900) | 05/2023 – Present
